## HOLIDAY HOUSE AND THE 65-FOOT CHANDELIER

· GDG Tours the Opulent Upper-East Side Showhouse ·

On the opening day of Holiday House Design Show NYC 2018, Go Design Go scoured every meticulously designed corner of the towering 6-floor townhouse, absorbing plenty of blue hues, painted motifs, and funky statement accessories. Each room coincidentally complimented each other as their holiday themes were presented in a subtle and sophisticated manner. Join GDG on this virtual tour of a handful of the rooms that make up this special project.

Just beyond the master closet is designer Perry Sayles' 'Double Ninth Festival' Master sitting room, featuring a grouping of Lladró porcelain sculptures, vases and lighting which complete his delicate room aesthetic.
